CAREER OBJECTIVE

B.Tech (AI & Data Science) 2027 graduate seeking a Software Developer role. Skilled in Python, Flask, HTML, CSS, JavaScript, React, and MySQL, with hands-on experience in developing responsive web applications and REST APIs. Possess strong problem-solving, analytical, and teamwork skills, with a keen interest in learning new technologies and building scalable, efficient, and user-friendly applications. Open to relocation and on-site work.

SKILLS

Languages: JavaScript,Python, Java, SQL
Front-End: HTML, CSS, React, Responsive Web Design
Back-End: Node.js, Flask
Web Development: Web Applications, Deployment, Testing, Debugging, Code Review
Tools: Github, VS code , Antigravity, MySQL Workbench
Core Skills: Problem Solving, Teamwork, Communication

PROJECTS

Distraction Reminder | Python • Flask • JavaScript • HTML • CSS • MySQL • NLP **July 2025**

- Built a responsive web application using Flask, HTML, CSS and JavaScript that detects user distractions and delivers timely reminders.
- Developed Flask REST API endpoints connecting the front end to NLP-based distraction detection logic.
- Stored user activity data in MySQL; tested and debugged features and deployed the application on Netlify.

Smart Aviation Safety System | Python • Machine Learning **Oct 2025**

- Developed an ML-based system that analyses aviation data to identify patterns associated with potential pre-flight and in-flight safety risks.
- Supported risk assessment and safer, better-informed decision-making.

IOT and Edge-Based Smart Telecom Tower Monitoring System | DHT11 | SW-420 **April 2026**

- Monitored tower temperature, vibration and power conditions using NodeMCU (ESP8266) sensors.
- Displayed readings on an LCD for early identification of abnormal conditions.

EXPERIENCE

Technohacks | Project Intern **Dec 2025**

- Worked with real-world datasets to identify patterns and gain practical exposure to data analysis and problem-solving.
- Applied machine learning techniques to datasets, gaining hands-on experience in developing data-driven solutions.

CERTIFICATIONS

- Participated in the VELSATHON'26 at Vels Technologies. Collaborated with team members to develop ideas and solve technical problems. **Oct 2026**
- Participated in the 24-hour Brilliant Bharath Hackathon at Janson Institute of Technology, gaining hands-on experience in teamwork, problem-solving, and innovation. **Feb 2026**
- Completed certification in Internet of Things (IoT) fundamentals. **Oct 2025**

EDUCATION

Mahendra Engineering College, Namakkal **2023 - 2027**
B.Tech, Artificial Intelligence and Data Science | CGPA: 8.58

SRV Girls Higher Secondary School, Rasipuram **2022 - 2023**
HSC | Percentage: 75%
